

EVGENY KONDRATIEV, M.Sc.
Senior Exploration Geologist

BACKGROUND

Evgeny Kondratiev is a senior mining and exploration geologist based in Moscow through Micon's Norwich, UK office. Before joining Micon he held the position of Chief Geologist at the Zapolyarny mine, part of the Norilsk 1 group of mines, operated by Norilsk Nickel. Prior to assuming the role as Chief Geologist, Evgeny held senior positions in the geological exploration division and the mining department of that company. Evgeny is a certified user of AutoCAD, MineScape and Surpac and implemented the installation of computerised survey and geological data systems at the mines of Norilsk Nickel.
